✓ A good design will require *   2/2

- ◉ fewer mocks   ✓
- ○ more mocks

✓ Mocks should help make tests *   2/2

- ☑ easier to write   ✓
- ☑ faster to run   ✓
- ☑ influence the design   ✓
- ☐ depend on each other

✓ Anytime we have dependencies, we should use stubs or mock objects. *   2/2

- ○ true
- ◉ false   ✓

✓ We should try to use mocks as an exception than a norm. *   2/2

- ◉ true   ✓
- ○ false

✓ It's far better to remove dependency than to decouple and inject dependencies.   *2/2

- ◉ true   ✓
- ○ false
