✓ When iterating sequentially over a list, the iterator guarantees the order. *   2/2

- ⦿ yes   ✓
- ◯ no

✓ Even though a list and a set each return an iterator, the implementations of these iterators are different.   *2/2

- ⦿ yes   ✓
- ◯ no

✓ Iterator ___ the client from the implementation of the collection by abstracting the iteration.   *2/2

- ◯ binds
- ⦿ decouples   ✓
- ◯ connects
- ◯ isolates

✓ When iterating sequentially over a set, the iterator guarantees the order. *   2/2

- ◯ yes
- ⦿ no   ✓

✓ The main principle used in the solution of the iterator pattern is: *

- ◯ DRY
- ⦿ DIP ✓
- ◯ LSP
- ◯ YAGNI
